SPECIAL ANNOUNCEMENTS.

The Premium List of the North Carolina Agricultural Society for 1893 is issued too early to contain announcements of the special attractions which will be secured for the pleasure and entertainment of the people of the State during their great annual reunion at the State Fair; but assurances are here given that the week's programme will include many interesting and amusing features. The people may arrange to visit the State Fair of 1893 with every assurance that everything possible will be done for their convenience, entertainment and pleasure. Particulars of attractions, etc., will be given through the State press in due time.

PUBLICITY.

The Society will, in future, undertake to give publicity to the success of exhibitors at the State Fair. Takers of premiums will be given as much public credit as practicable. It is proposed to secure good pictures of horses, cattle, etc., that may be awarded premiums, and the publication of same, with full description, pedigree, history, etc., made in some widely circulated paper.

RACES.

The large and increasing interest in the development of harness and trotting horses in the State now insures the possibility of having a large field of fine and speedy horses on the race circuit this year, and the Society will seek to eclipse all former efforts in this department. Classes, programmes and purses will be announced about August 15.

RAILROAD SCHEDULES.

Railroad schedules and rates will be the best that the railroads can arrange. Their courtesy this year, as was the case last year, will be limited only by the possibilities.

ILLUSTRATIONS.

The illustrations in this issue of the Premium List are used by courtesy of the State Board of Agriculture.

REGULATIONS.

I. The gates will be open for the admission of visitors at 10 o'clock A. M. each day, and close at 6 P. M.

II. Every reasonable effort will be made by the officers of the Society and those in charge of the grounds to protect the property on exhibition from loss or damage, but the Society will not hold itself responsible should loss or damage occur.

III. All articles which are the product of the soil must be entered in the name of the producer. Those showing HANDIWORK or SKILL must be entered in the name of the one whose skill they exhibit. Such may be individuals, firms or factories. They must have been made within three years, and not exhibited at any former Fair of this Society. All other property must be entered in the name of the ACTUAL OWNER. Any violation of this rule will bar the violator from competing for any premium whatever, and render him and his exhibit liable to expulsion from the grounds.

IV. Should any person misrepresent his exhibit, and a premium be awarded upon it, such premium may be withheld by the Executive Committee.

V. Drunkenness, quarreling, or the use of profane or obscene language, also gambling, pool-selling, or other games of chance, will not be allowed on the grounds; nor fireworks, petroleum, gunpowder, or any other objectionable or dangerous materials whatever.

VI. The Executive Committee reserves the right to withhold premiums in any case in which it shall appear to them that the regulations have not been complied with, or that fraud or deception has been practiced or attempted.

VII. No person shall act as superintendent or on any awarding committee in any department in which he is an exhibitor.

VIII. Tickets furnished exhibitors will be good for themselves only, and those attempting to transfer them will forfeit the same and be compelled to buy others before entering the grounds. The same rule will be enforced with reference to all other tickets.

IX. The prices of admission will be as follows:

Single ticket, each day	$ 50
Children under twelve years, each day	25
Carriages of visitors, with driver, each	50
One-horse carriage and driver, per week	3 00
Two-horse carriage and driver, per week	5 00

X. Each department will be under the special charge of one member of the Executive Committee, who shall be known as the Director of that department. He will oversee the arrangement of all articles offered for

exhibition in his department, and have control of the space assigned to it. He will be assisted in his duties by a special superintendent, who will receive all exhibits, take personal charge of them, countersign the exhibitors' coupons, and deliver the articles on the surrender of the countersigned coupons at the close of the Fair.

XI. The Director in charge and the Special Superintendent shall attend the Judges when making the examinations in their respective departments, and furnish them with all required information. *Premiums will not be paid to parties having exhibits where it is proven that they accompanied the Judges when awarding the premiums.* The awards, when completed, shall be signed by the Judge, and also by the Director, who will take charge of the book and return it to the Secretary. As the awards are made, the Director or his Superintendent will attach the ribbon indicating the award.

XII. Should any of the Judges previously selected fail to be present, the Director of each department is authorized to select others to fill the vacancies, always endeavoring to select persons duly qualified by their pursuits or experience to make correct awards in each special department. In all cases, the Judges, before awarding any premium, will be careful to see that the requirements of the Premium List have been strictly complied with by the exhibitor.

ENTRIES.

XIII. The entry-books will be open at the office of the Secretary of the Society, in the new Opera-House in the city of Raleigh, from September 15 to and including the Friday next before Fair Week, and at the Secretary's office at the Fair Grounds on Saturday and until 12 o'clock noon on Monday, when all entries will positively close. Much trouble and annoyance may be avoided by compliance with this regulation.

XIV. Entries may be made in person or by letter. In making entries it will be necessary to give the name of the article, the name and post-office address of the exhibitor, and the premium number under which the article entered is to compete This is especially necessary in order that the article may be properly entered. No entry fee for articles exhibited will be required.

XV. Each exhibitor will be furnished with a tag for each entry, having a coupon attached, which he will carefully fasten to his exhibit, and, taking it to the department to which it belongs, will be assigned space by the Superintendent of that department, who will see that it is properly displayed. Detaching the coupon, will countersign it and return it to the exhibitor.

XVI. No article or animal will be entitled to space until the proper entry has been made. After an article or animal has been entered for a premium, it cannot be removed until the close of the Fair without permission from the Secretary or the Supervisor in charge of the depart-

ment; and if any person removes an article or animal without such permission, he forfeits all claims to a premium, even if the same may have been awarded.

XVII. Persons desiring space for the exhibition of articles or machinery not entered for competition must apply to the Secretary as early as possible, giving the name of the exhibitor and article, place of residence, and the amount of space required.

XVIII. Exhibitors of horses, cattle, sheep and swine will be required to display over each stall or pen occupied by their stock a placard containing the name, age and breed of animal occupying the stall or pen, and also the name and address of the owner. The placard will be furnished and filled up at the Secretary's office.

XIX. Arrangements have been made with responsible parties to furnish corn, oats and hay on the grounds at market prices in Raleigh, in quantities to suit purchasers.

XX. All entries shall be for the first premium of the premium number under which they are entered; but, failing to take the first, shall compete for the second, if a second is offered: and, failing to take the second, shall compete for the third, if any; but shall not be awarded more than one premium under the same premium number.

XXI. The same article or animal may compete for the premiums of two or more premium numbers, except when otherwise stated; but, in order to do so, must be entered under each.

XXII. Premiums are payable thirty days after the close of the Fair, and if not claimed by the first day of February, 1894, will be regarded as donated to the Society.

LIFE MEMBERS.

XXIII. Life members will be furnished tickets, good for the week, on application to the Secretary. These applications may be made through the mail or in person, but must furnish the name of wife, if married, and children, if any, under twelve years of age, when tickets, properly filled out with names so furnished, will be issued. To avoid delay, application should be made for those tickets several days before the rush of Fair Week begins.

GATE-KEEPERS.

XXIV. Gate-keepers will be clothed with police authority, and are required to preserve order at the gates. They must not receive money for admission under any circumstances.

XXV. All tickets—Life Members' tickets or other tickets—presented by persons not entitled to hold them, must be taken up, and those offering them required to purchase others before entering the grounds.

SAMPLE EXHIBITS.

XXVI. The rule formerly adhered to, requiring exhibitors to bring two bushels of field crops and seeds, has been changed so as to require one bushel only.

LIST OF PREMIUMS.

DEPARTMENT A.

FIELD AND GARDEN CROPS.

A. F. PAGE, Director.

All entries in this Department must be made in the name of the producer.

In all cases where premiums are offered for the largest yield per acre, the land must be measured by a competent person, who shall certify to the accuracy of the same in the following form:

FORM OF CERTIFICATE.

I hereby certify that on the ..... day of ....., 1893, I measured the land on which ..... raised a crop of ..... this year, the dimensions of which were as follows: .....×.....×.....×..... feet, containing ..... square feet—that is to say, ... acres of land, and no more.

The exhibitor shall make out an exact and detailed statement of the kind and condition of the soil, quantity and kind of seed used, the time of planting and manner of cultivation, the kind and quantity of manure used, the total cost of cultivation and manuring, and the number of bushels or pounds raised, and shall certify to the same in the following form:

FORM OF CERTIFICATE.

We hereby certify that ..... raised a crop of ..... this year upon the land measured by ....., and that the accompanying statements and certificate have reference to said land and the crop raised thereon and none other, and are correct; that the land yielded ..... bushels (or pounds), and that we are in no way interested in said yield.

(Signed) .....

(Signed) .....

Dated ...., 1893.

[This certificate is to be signed by two disinterested persons.]

On all crops on which the premiums offered are for the largest yield, which are gathered in time to do so, the above statements and certificates must be furnished at the time of making the entry, and the premiums must be awarded during the Fair.

On all crops not gathered in time, these statements and certificates must be forwarded to the Secretary by December 10, when a meeting of the Executive Committee will be called and awards made by them. But in all cases, a sufficient quantity to make the required exhibit must be gathered, entered and placed on exhibition at the Fair.

For the largest yield of cotton, the exhibitor must show not less than two stalks taken from the plot of ground competing for said premium, with tags on each stalk, designating each variety, what premium they are exhibited for, and such other information as he can furnish in regard to cotton.

51. Best ensilage, one barrel $4 00

On all yields of crops, certificates and statements to be furnished and filed with the Secretary when making the entry. On all crops not gathered in time for the Fair, a sample must be shown at the Fair when the entry is made, and mnst be put on exhibition during the Fair. These awards will be made by the Executive Committee early in December, on all field crops, for largest yields.

THE ODORLESS PHOSPHATE

PRODUCES MORE WHEAT

Than Superphosphates. See Ohio Agricultural Station Report, Bulletin 100.

IT PRODUCES MORE POTATOES than any other fertilizer. See Vermont Report 1888, and Michigan Report 1892.

IT PRODUCES MORE CORN than any other fertilizer. See Vermont Report 1888, page 93.

The ODORLESS PHOSPHATE improves the physical condition of the soil in addition to the plant food it contains. See the endorsement of the United States Department of Agriculture, pages 173 and 174, in Report of 1891, where it is stated: "For several years experiments have been carried on which have finally demonstrated beyond any reasonable doubt that the Phosphoric Acid in Basic Slag (Odorless Phosphate) is available for plant food."

"ODORLESS PHOSPHATE."

"A sample of this material was drawn from stock purchased of Jacob Reese, of Philadelphia, by J. H. Ives, of Danbury. If this Basic Slag could be purchased cheaply enough it would be well worth the attention of those tobacco growers who endeavor to avoid the use of sulphates on their land."—*Connecticut Report*, 1891.

The "Slag Phosphate" (the Odorless) produced more Oats in the experiments of the Ohio Agricultural Experiment Station in 1891 than any other fertilizer. See Bulletin, Vol. V, No. 3, p. 53.

In the Bulletin of the Ohio Agricultural Experiment Station for August, 1891, p. 73, they say of the Odorless Phosphate: "In our experiments this material, Acid Phosphate and Dissolved Bone Black, have been used side by side, with results thus far favorable to the slag."

THE ODORLESS PHOSPHATE is the Purest Plant Food Ever Made, it is Ground Finer, it Goes Further, and Lasts Longer, Than Any Other Fertilizer Ever Used.

Do you want a big crop of Wheat? Do you want a big crop of Potatoes?
Do you want a big crop of Corn?
Do you want a big crop of Oats?
Do you want a big crop of Hay?
Do you want a big crop of Oranges? Do you want a big crop of Tobacco?
Do you want a big crop of Cotton?

Is this not a wonderful discovery, nearly four million tons sold in fourteen years. Millions of farmers are getting rich by using the Odorless Phosphate. Delivered on cars at Pottstown, Pa. Terms to merchants, cash, thirty days. Strangers must send cash with the order. Send all orders to

JACOB REESE,
400 Chestnut St., Philadelphia, Pa.

ROOT CROPS, VEGETABLES, ETC.

52. Best bushel sweet potatoes ..... $ 2 00
53. Best bushel irish potatoes, one annual subscription to *The American Agriculturalist*, given by the Orange Judd Co.

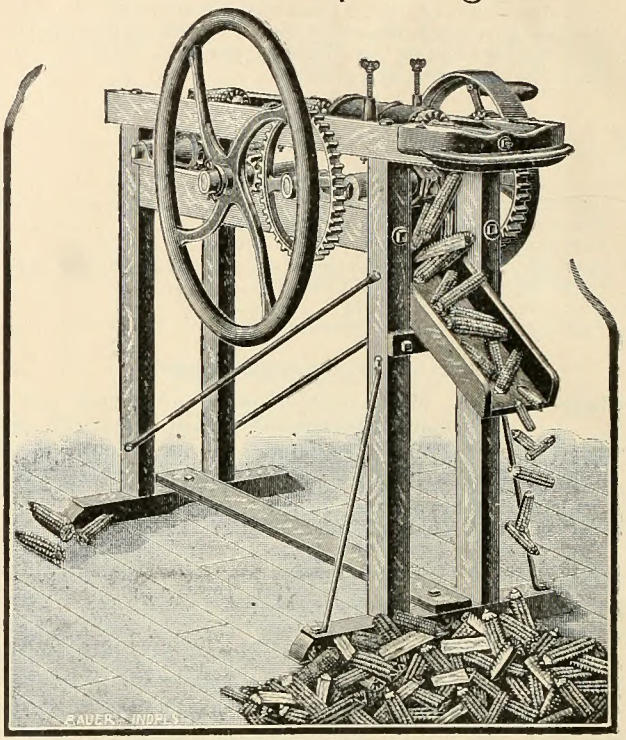
THE NEW

Poindexter Corn Splitting Machine



"C" MACHINE—PRICE, $35.00.

This cut illustrates our latest improvements in Corn Splitting Machines, in which strength, simplicity and durability are combined, and requires less power to run it than any machine we have heretofore manufactured. It has a storage power of 800 pounds Its capacity is 300 to 500 bushels per day. The corn is forced over the splitting spears by means of an endless chain belt of a strength of 2,500 pounds test, driven by sprocket wheels. The corn is dropped in the trough between pushing cups on the chain with the large end towards the spear It is self-feeding; will split either husked or snapped corn into three or five slivers, leaving the grains of corn on the slivers of the cob, as shown in the above illustration. A boy can operate it by hand with ease and *safety*. Salesmen wanted. Address, with reference,

CATTLE.

Unless the Judges deem the animals *individually worthy*, they will withhold premiums.

Premiums awarded in this Department will be confined to cattle owned in North Carolina.

Cattle not owned in the State may enter without the payment of an entry fee, and owners will be permitted to sell on the grounds without charge

[All except Grades or Natives must be registered and certificates of registration filed with the Secretary. In all entries for Grades, either the sire or the dam must be registered thoroughbred, and so proven.]

This article was written and published by the N. Y. *Turf, Field and Farm*, after a thorough investigation as to the merits of the Bit, and pronounced by them as being absolutely indispensable to every one owning a horse. As a result, letters of congratulation have been received from publications all over the world. The *Carriage Journal*, of Chicago, Ill., says: "You have a great invention, worthy of a gold *medal* from *Congress*."

A WONDERFUL BIT.

It is a wonderful bit, as is demonstrated by two facts, an examination of its simple mechanism and the record it has made in stopping *every* horse, regardless of its viciousness, on which it has been tried.

The principle at the bottom of this bit is so simple, so logical and practical, that we wonder it was not adopted before, much as we wonder that it took generations for men to realize that car wheels did not need to run in cogs.

Will you please hold your nose tightly, shutting the air passages, and then try to run swiftly; do you think you would go far, no matter how wild or angry you were? Do you not think your mind would turn to making an effort to relieve the stoppage of breathing? Suppose this pressing could be regulated to a hair, partially shutting off your breathing or grading it to the finest pitch, and supposing you knew that your privilege to breathe depended upon your obedience and gentleness; don't you think you would soon learn to be gentle and obedient? That is the principle of Britt's Automatic Bit. The pulling does not act on the bit itself, lacerating the mouth to no advantage, but it works outside of the bit on the rubber pads, each of which rests against the nostril, and as the rein is pulled these pads are pressed against the nostril, gradually shutting off the wind in proportionate time to the strength thrown into the pull on the rein, which is regulated by springs at the side. The bit also cleverly allows the mouth to open slightly at the same moment by pressure of the bar in the mouth against the lower jaw, so that a very limited amount of air can pass in that way when the nostrils are entirely closed.

But what are the results of its use? Letters have arrived from all over the world, letters seen by the writer, telling of incident after incident where it has made vicious and unmanageable horses as gentle as kittens.

The amount of it is, horses are like men; when they see there is absolutely no use in fighting they quietly submit.

What a grand invention this is? A man can let his wife, mother or daughter drive a spirited horse and know they are safe. If he has had a horse utterly beyond control, he can now drive him with comfort and ease. Many a horse now almost useless can be made worth thousands with this bit. In fact no horseman should lose the opportunity of securing Dr. L. P. Britt's descriptive pamphlets, giving illustrations of the bit, with complete descriptions, letters from all over America, prices, etc. The half-page advertisement in this list should also be carefully noted. His office is 37 College Place, New York.

Another invention of the Doctor's which will soon be upon the market and which will go far toward revolutionizing the horseshoe and nail industry, is a nailless horseshoe.

The shoe is so simple that it makes one smile to look at it. It is simply a grand invention, as it is a long-wearing shoe, and it will at last put an end to sore feet, lameness, lockjaw, etc., in horses from nails being driven into the foot. It is so rapidly adjusted that a man can take his horse's shoes off every night about as easily as he can take off his own. Horsemen should not fail to be informed of this improvement.

FERTILIZER FARMING.

THE MAPES MANURES.

Correspondence especially solicited from practical growers of Tobacco, Potatoes, Truck, Tomatoes, Orchards, Small Fruits, Strawberries, Grapes (for wine or market), Lawns and all farm crops.

Write us fully, stating what you desire to grow, character of soil, rotation, etc., and we will mail to you pamphlets and circulars that will help you. We have now ready for mailing:

1. DESCRIPTIVE PAMPHLET.

The MAPES MANURES, and How to Use Them on Truck, Cabbage, Cauliflower, Sugar-Beets, Tomatoes (for canning), Onions, Celery, Rhubarb, Top-dressing Grass or Lawns, Seeding to Grass, Orchards, Tobacco, Small Fruits, Grapes and General Farm Crops. This is our General Pamphlet covering all crops.

This Descriptive Pamphlet is arranged for easy reference to any crop. It should be in the hands of every farmer, fruit grower, trucker and special crop-grower.

2. THE MAPES TOBACCO MANURES.

Testimony of Tobacco packers and buyers, also large growers on the Mapes System of Tobacco Growing for light-colored leaf of choice qualities.

3. ORANGE AND TROPICAL FRUIT GROWING.

Necessity of special manuring for promoting quality and quantity of fruits, apart from vigorous wood growth.

4. FERTILIZER FARMING. (Chemicals and Clover. Second Series.)

An account of "thin, poor, light lands profitably brought up to fertility without stable manure." Successful farm operations on very light lands in growing ordinary crops and grass with only the Mapes Complete Manures. By W. H. Collingwood, Managing Editor of *The Rural New Yorker*.

6. SEEDING TO GRASS, Spring or Fall, with or without Grain.

Top Dressing in Spring old or worn out meadows, mowing or pasture lands, with or without stable manure.

Apply for pamphlets to us or to any of our agents.

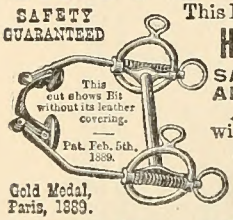
HARD-MOUTHED HORSES

AND PULLERS CONTROLLED WITH ABSOLUTE EASE.

RUNAWAYS IMPOSSIBLE.

This statement is now repeated by thousands who have purchased

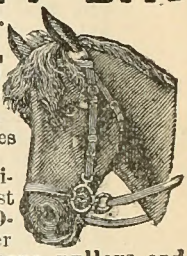
BRITT'S AUTOMATIC SAFETY BIT.



This Bit, by an automatic device, closes the horse's nostrils.

HE CANNOT BREATHE, AND MUST STOP.

SAFETY FROM RUNAWAYS ABSOLUTELY GUARANTEED WITH THIS BIT



Any horse is liable to run, and should be driven with it. By its use ladies and children drive horses men could not hold with the old style bits.

Send for illustrated pamphlet containing testimonials from all parts of the world, and earnest and candid expressions about the **BRITT AUTOMATIC SAFETY BIT** and its resistless but harmless and humane power in subduing the most vicious horses and controlling the most **stubborn pullers** and chronic runaways.

The only bit in the world that is endorsed, advocated, used and sold by the Society for the **Prevention of Cruelty to Animals**, *The Highest Authority.*

THE HOME COMPANY.

CARALEIGH PHOSPHATE AND FERTILIZER WORKS.

Manufacturers of High Grade Acid Phosphate and Ammoniated Guanos. The justly celebrated

ECLIPSE ACID PHOSPHATE, ECLIPSE AMMONIATED GUANO (for all crops), CARALEIGH SPECIAL VINE AND FRUIT FERTILIZER.

☞For the grain trade in the Fall use our High Grade Eclipse Acid Phosphate. First analysis by State Chemist, on right fresh goods, *15.98 per cent. available phosphoric acid.* These goods seasoned for the Fall trade will test from 14¼ per cent. to 14½ per cent. They are made at home; hence freight to you is small. We can therefore name prices defying competition. Note this down.

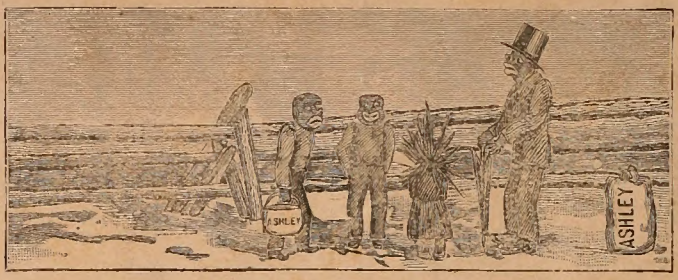
ASHLEY PHOSPHATE CO.,

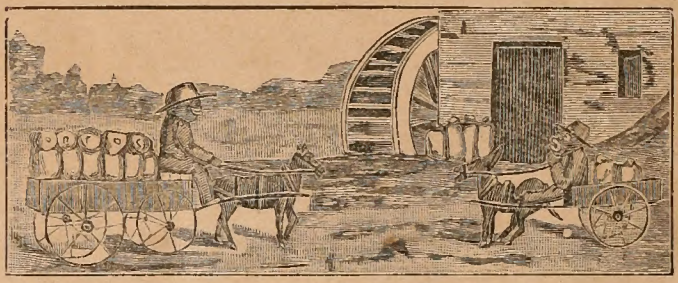
CHARLESTON, S. C.



ASHLEY, THE GREAT UNIVERSAL ANTI-CURLER.

(GRANDFATHER SAMBO)—Who put Ashley on dat chile's har? Dat chile wore curly har out ob respect to his great gran par, and now de chile's suit o' har's ruined! ruined!! completely ruined!!!

You see de Ashley has a mighty action,
'Tis what dey call the capillary 'traction;
Dey calls it de "Ladies' Friend" a-since de war,
'Cause it takes de kinks out ob de woolly ha'r.



ASHLEY, THE GREAT MORAL AGENT.

Since Ashley has come, new modes and methods revealing,
A gentleman can afford to live without stealing.

(Colored Gentleman on wagon)—Now, dat Nigger specks I stole dis wheat. Golly! he don't know I's been usin' Ashley.

(Continuing aloud)—Look here, boy, none o' your sass 'bout me;
Because you be tief, you tinks I be.
I w'd have you for to know, sir.
I'se a gentleman;
Nothing mean about me, sir,
I use Ashley Guan',

SOLILOQUY.

Some lives by picking and stealing;
Some lives nobody knows how;
Some lives—(past all believing)—
Some lives by de sweat of de brow;
Some lives in Providence trusting;
Some lives like an old nail, rusting;
Some lives, their friends all busting;
Some lives by git-up-and-dusting;
Some use Ashley, and they come first in.
